

## Amendment

### Bylaws, Section 10. Amendments

Add: Mail ballots shall only be used to facilitate the duties of the Executive Council outside of the business meetings with the body. Mail ballots shall not be used as a way of circumventing the use of parliamentary procedures. Mail ballots shall also not be used to overturn the decisions made by the body after discussion at the business meetings.

Rationale: This would allow mail ballots for items such as adjusting the calendar. It would not allow items that would change event rules, create new events, or change the will of the body. We are a communication organization that should value the discussion of items before deciding them. We are also an organization that uses parliamentary procedures during business meetings and mail ballots are not subject to the use of those procedures.
